Subject: Uber

I refuse to take local taxi cabs. Drivers are slow, unfriendly, unreliable, and I've had many just plain not bother to pick me up when I schedule it.

Uber is anything but that. This is the NEW way of transportation, something that is much needed here in Charleston. The system is flawless. The drivers are always there on time and able to carry on a conversation. I always consider them a friend, someone picking me up and providing comfort, warmth, and friendliness. Take any city cab in charleston and let me know when you experience that hospitality...you won't.

Uber wins, basically.

Subject: Uber

Uber has set the standard for consumer safety in the Palmetto State. All uberX rides are [insured](#) up to \$1,000,000, which is 20x the \$50,000 required of taxis in the state, and all drivers on the uberX platform must pass [background checks](#) at the county, state, and federal level before they are able to drive on the Uber platform. Their commitment to safety exceeds the current state requirements, which is why they are incredibly surprised and disappointed by the actions of the PSC.

Removing ridesharing from South Carolina harms the tens of thousands of riders who rely on the Uber platform for safe, low-cost rides.
